

Insulated Stick Kit Telescopic 2.43m - Volt Safety

Our Telescopic Insulated Sticks are rated to 220kV, made from high grade electrical rated fibreglass and allows access to electrical systems from a safe working distance.

Our Insulated Stick Kit comes with a protective carry bag to allow for easier transportation of the insulated stick and any extra attachments. A Nylon Fuse Puller and disconnect hook are provided for extra functionality.

Key Features:

- Size - Retracted: 0.82m x 5cm x 5cm
- Size - Extended: 2.43m x 5cm x 5cm
- Material: Fibreglass
- Weight: 1.8kg
- Sections: 5
- Solid end piece filled with foam
- Universal 'Sunrise' adapters are available and allows attachment of numerous tools
- Locking buttons ensure sections required for the job are extended, allowing greater flexibility for height requirements
- A Triangular design provides many benefits over rounded insulated sticks, such as:
 - More stable
 - Less flex
 - Can easily find the locking button
- Strap ensures insulated stick stays retracted
