

High Voltage Rescue Kit Plus+ - Volt Safety

High Voltage Rescue Kits made by Volt Safety are a must-have kit for most Electricians and are designed to be used by the safety observer in the event of on-site electrical shock. It enables the safety observer to safely perform rescue on a victim incapacitated by high voltage without being electrically shocked, and includes contents to provide relief for the victim.

NB The insulated gloves supplied in this kit are required to come in size 11 to ensure the gloves can fit different safety observers. The gloves are stamped 'RESCUE USE ONLY' to state that they should *not* be used as everyday working gloves, as the gloves need to be suitable for purpose in the event that a rescue is required.

Key Features:

- Conforms to the requirements of Australian energy providers
- Available in a variety of classes to ensure suitability for your on-site requirements
- Hi-Vis bag with reflective font to ensure kit is easily findable in dark environments
- Kit contained in a heavy-duty waterproof PPE bag to protect kit contents
- Insulated Rubber Gloves Size 11 Gloves, available in multiple classes
- Sturdy 'Isolate Here in emergency' sign with attachment string

SKU/Part #	Voltage Rating
KIT-HVR-PLUS-1	Class1 7500v
KIT-HVR-PLUS-2	Class2 17000v
KIT-HVR-PLUS-3	Class3 26500v
KIT-HVR-PLUS-4	Class4 36000v

Product Data Sheet

- Contains contents to provide aftercare for the victim
- Multi-Trauma Burns Dressing opens up to 75cm x 75cm
- St. Johns Quick Reference First Aid Booklet
- PPE bag can be utilised as a water bucket
- Non-Conductive Insulated LV Hook/Crook
