

Gate Valve Lockout for Gas Bottles - Volt Safety

Volt Safety's Gate Valve Lockout for Gas Bottles enables you to lockout standard size gas bottles or similar size gates/handles. Made from durable non-conductive engineered ABS plastic which can withstand temperatures from -20° C to 90° C. The design also ensures the gate/handle is completely enclosed for added security. Requires safety padlock to secure.

Key Features:

- Colour: Red
- Central Diameter: 32mm
- Inner Diameter: 92mm
- Body Height: 40mm
- Hole Diameter: 45mm
- Service Temperature Range: -20° C to 90° C
- Made from engineered ABS plastic
- Metal-free making it spark proof and chemical resistant
- Resistant to cracking and abrasion in extreme weather and temperature conditions
- Lockout cylinder tanks, including propane tanks on fork trucks and stand alone propane tanks
- Easy to avoid unauthorised operation
- Can be equipped together with hasps and padlocks for secure lockout
