

Tie Bar Multi-pole Mini Circuit Breaker Lockout - Volt Safety

Volt Safety's Tie Bar Multi-pole Mini Circuit Breaker Lockout enables you to lockout circuit breakers with no holes. This lockout is specifically engineered to accommodate mini circuit breakers with a tie bar mechanism, ensuring that multiple breakers are simultaneously locked out to prevent accidental activation. Its compact design ensures a snug fit on single and multi-pole circuit breakers, offering an effective solution for safeguarding personnel and equipment in industrial and commercial environments. Ideal for compliance with safety standards, this lockout helps minimise the risk of electrical accidents while maintenance or troubleshooting tasks are underway.

SKU/Part #
LOCKOUT-MCB TB

Key Features:

- Colour: Red and Black
- Dimensions: 33mm x 13mm
