

1000V Insulated Torx Screwdriver - BSD

BSD's 1000V Insulated Torx Screwdriver is a specialised tool designed for working with Torx screws in environments where electrical safety is a priority. The handle and shaft are insulated to protect against electric shocks, rated for up to 1000V of voltage, making it ideal for use in high-voltage settings such as electrical panels, industrial equipment, and appliances. This tool is an essential safety item for electricians and professionals working with live electrical systems.

Key features:

- Sizes Available: TX10, TX15, TX20, TX25, TX30
- Blade made from chrome-vanadium-molybdenum-steel
- Blade coated with protective insulation
- Power-form handle

Standards:

- IEC 60900
- Rated up to 1000V
