

## Adjustable Ball Valve Lockout - Volt Safety

Volt Safety's Adjustable Ball Valve Lockout is easy to use and prevents accidental activation of a closed ball valves. It secures the valve handle in a closed or open position, ensuring that the valve remains locked during maintenance or hazardous work. The adjustable design allows it to fit various valve sizes, providing flexibility and enhanced safety in controlling access to fluid or gas systems. This lockout device helps reduce the risk of injury or accidental release of hazardous substances.

### Key Features:

- Size: 164mm x 96mm x 111mm
- Colour: Red
- Material: Plastic ABS
- Suits padlocks with shackles of up to 8mm diameter
- Suitable for CLOSED pipes 1/2" to 3.15" in diameter, OPEN on pipes from 1/2" to 2.5"
- Withstands extreme weather temperature from -20°C to 90 °C
- Cracking and abrasion resistant
