

**TECHNICAL DATA** 

# Fluke 941 Light Meter

## **Key features**

- Measure in lux or foot-candles, with one button to switch between display options
- Measuring range up to 200,000 lux or 20,000 foot candles
- Data hold to freeze reading on the digital display
- Min/max ability to show high and low readings
- Auto power off to save battery life
- Includes protective sensor cap

## Product overview: Fluke 941 Light Meter

Designed for use in multiple environments, the Fluke 941 light meter is easy to use and provides clear data display for a variety of applications.

The Fluke 941 is a handheld luminometer than can measure visible light sent from a variety of light sources, to include fluorescent, metal halide, high pressure sodium, or incandescent lamps. With an extension cord to the light meter and separate display the Fluke 941 provides a handheld tool to accurately measure light in multiple environments. The Fluke 941 is a portable tool that measures light up to 20,000 fc of lux with an accuracy of .01 fc/lux.

### **Applications:**

Clean room environments, agriculture, HVAC operations Room illumination assessment as part of environmental health

and safety reviews Light source quality and troubleshooting

# Specifications: Fluke 941 Light Meter

| Measurement parameter |  |
|-----------------------|--|
| Range                 | 20, 200, 2000, 20000, 200000 Lux<br>20, 200, 2000, 20000FC (footcandle)  |
| Precision             | <ul> <li>±3% (at 2854°K - calibrated by the common incandescent lamp)</li> <li>±6% other visible light sources</li> <li>Cosine error</li> <li>30°±2%</li> <li>60 °±6 %</li> <li>80 °±25 %</li> <li>Cosine angle corrected according to the grade A general specifications of JIS C 1609:1993 and CNS 5119 A</li> </ul> |

| Specifications           |  |
|--------------------------|--|
| Sampling rate:           | 2.5 times/second for the digital display           |
| Display:                 | 3½ digit 1999-point LCD screen                     |
| Sensor:                  | Silicon photoelectric diode and optical filter     |
| Environment:             | For indoor use                                     |
| Power supply:            | 9V NEDA 1604, IEC 6LR61                            |
| Baery life:              | 200 hours; in about 6 minutes after auto power-off |
| Dimension<br>(main unit) | 130 × 63 × 38 mm                                   |
| Dimension (sensor)       | 80 × 55 × 29 mm                                    |
| Weight:                  | 220 g (including the baery)                        |
| Warranty period:         | 1 year   |
