

2.5m Self Retracting Webbing Lanyard - Linq

Linq's 2.5m Self Retracting Webbing Lanyard is engineered for extreme workplace situations, with the addition of a swivel connection point, the Self Retracting Webbing Lanyard has been developed to be durable and efficient. It extends and retracts automatically, allowing the user to operate within the recommended work area permitted by the AS/NZS Standard. The lanyard maintains tension which clears the work zone of any loose and dangerous excess webbing. In the event of a fall, a brake activates, arresting the fall and reducing the impact of the fall.

Key Features:

- Weight: 1.35kg
- Minimum breaking strength: >15kN
- Mass held rating: 136kg
- Retractable webbing maximum length: 2.5M
- Webbing width: 50mm
- Webbing thickness: 1.3mm
- Webbing material: Polyester
- Stitching thread material: High Tenacity Polymer
- Plastic cover material: PVC
- Includes 2 x screw gate karabiners
- Reduces impact forces to less than 6kN
- High impact polymer outer casing
- Inbuilt energy absorber for enhanced shock absorption
