

Padlock Dielectric Shank 38mm - 100 Pack - Volt Safety

Volt Safety Padlock Dielectric Nylon Shank 38mm is the safe way to lockout items where there is a change of touch a live component as the very strong Nylon shank is non conductive.

Available in a variety of colours and can be supplied Keyed Alike (KA) where one key opens all padlocks, Keyed Different (KD) where every lock has it's own specific key, or Keyed Different with Master Key (MK) where the crew can have specific keyed padlocks and the supervisor can open all of the padlocks with the one key.

If you have varied lockout requirements, please enquire about other lockout options!
